

WHAT DIFFERENTIATES US FROM COMPETITION

HEALING HAZEL	PUR NOISETIER
First company in category to optain a Medical Licence from Health Canada.	No licence.
We only use the freshest, light colored, highest quality wood, chose directly in Canadian forests.	Uses dark/grey wood
We offer 21 sizes	10 sizes
We offer 175 styles and colors	31 styles
High Quality sleek black displayer	Cardboard displayer
2 sizes available respectively for infant & toddler	Only 2 sizes available total, 11" size being too long and unsafe for small infant.
Size 10 1/2" is safe and adequate for average sized infant (3-10 months old) We are the only company to carry this size !	Does not carry this size.
Safe fasteners: double ring & hook system.	Unsafe fasteners, that easily unscrews.
We leave a "safe space" between each beads and wood pieces, so that when wood oxidizes (darkens, sometimes swells) it will safely remain intact and not break.	No safe space is left, so necklace can easily break and therefore is unsafe.
Our wood diameter is bigger, therefore more sturdy and safe.	Smaller diameter, therefore easier to rupture.
We carry Women/Teens & Men/Teens sizes and styles.	Carries Adults only.
5 necklace sizes - 6 wrist sizes - 4 ankle sizes	3 necklace sizes 2 wrist sizes 1 ankle sizes
Exclusive to Healing Hazel ; magnetic fasteners that are so easy and convenient to use on our bracelets!	Uses elastics and a simple nod.
Our single wrist bracelet uses the same amount of wood than our competitor and is less expensive.	Their new double wrist bracelet
Our products make sense: Our beads are smaller so the wood will be in contact with your skin and work its magic.	Beads are bigger than wood, therefore wood is not in contact with skin.
Harmonious looking product; all woods are same color, diameter, length on each item.	Wood pieces are all different sizes , diameter, colors.
